Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: Prior art neither teach nor suggest forming electromechanical device having plural electrode regions with surface substantially coplanar with the dielectric layer (see Fig. 6C) and also does not forming electromechanical device etching through sacrificial layer to form dimple portion of a top electrode space proximate electrode region and depositing dimple metal layer in dimple portion to form dimple contact portion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
